What's New In?

This is a great program for beginners! And those who know how to use good videobraille can do it for a different topic. Anyway, it's quite easy to use. You put a picture on the screen, just like on your cctv camera. Then, you set a background music. Once all is ready, press record. Done. Maybe it takes a bit of time to get the right picture for a simple photo... As you put the text in front of your pictures, the camera records it on the PC. You can set a name for the videobraille, a date and duration etc. Software Support Classifieds iPad Video ConverterIt's an amazing iPad video converter, which can convert over 200 video and audio formats.
